EDGE CUTOUT

Measuring for cutouts around obstructions on windows and doors (like backsplashes, counter tops, door knobs, latches, window cranks, etc.) is easy. Follow the instructions below to measure any cutouts on the right or left side of your window or door, or both sides if needed. Send the completed worksheet to customercare@selectblinds.com. We'll take it from there and add it to your order to ensure a perfect fit.

If you are ordering outside mount, make sure to add the recommended 2" - 4" to your total width BEFORE you fill out this worksheet.

Measure the height from the top of your window to the top of the obstruction.

inches

B

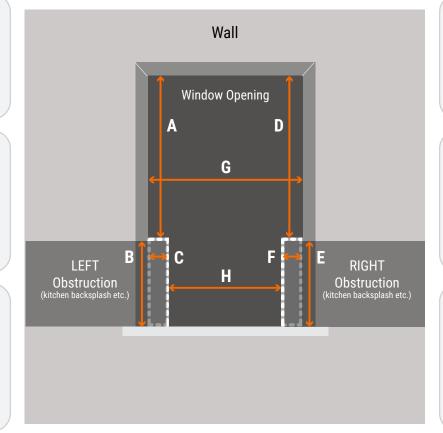

Measure the height of the obstruction from the bottom of your window to the top edge of the obstruction.

inches

C
