<table>
<thead>
<tr>
<th>TOOLS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rechargeable Drill with 1/4” Hex Bit / Phillips Screwdriver / Pencil / Tape Measure</td>
</tr>
</tbody>
</table>

## UNPACKING THE PARTS

- Locate the parts and brackets in hardware box. The quantity will vary with blind size.
- Hold-down parts will only be sent for blinds that have requested this option.
- Center Support Bracket will only be sent for blinds over 37” wide.

## BRACKET PLACEMENT

- Left Bracket
- Right Bracket

### IF APPLICABLE:
- Center Support Bracket

## VALANCE CLIPS & WAND

- Attach Valance Clips
- Clip on to Headrail

## FINISHING UP

- Slide into Brackets
- Attach Wand
- Install Valance

### IF APPLICABLE:
- Hold-down brackets

## OPERATING INSTRUCTIONS

- Raise or lower the blind by lifting or lowering the bottom rail to the desired height.
- Please note: This product is made up to +6” of ordered height. Blinds over 84” may include up to 10” of additional height. This is normal for this product and not considered a manufacturing error or defect.
- Open or close the blind slats by turning the wand until the slats are opened or closed to the desired amount.
