LIFESTYLE ROLLER SHADES
Motorized Operated Shade Installation Instructions

Section 1 - Motorized Operated Open Roll
Section 2 - Motorized Operated with Deco Fascia
GETTING STARTED

Make sure you have all of the parts and tools required to install your shades.

Tools:
- Measuring Tape
- Power Drill
- #2 Phillips Screwdriver or
- ¼” Hex Head

General Parts to Install Your Shade:

- Installation Brackets
- Screws
- Idler
- Bracket Cover (Outside mounted only)
- Screw Covers (Outside mounted only)

Deco Fascia Installation Parts (supplied if Deco Fascia was ordered):

- Deco Fascia
- Deco Fascia Installation Brackets
- Outside Mount Backplate (if ordered)
- Plastic/Metal Returns (if ordered)
- Corner Pieces (Outside mounted only)
If your shades were ordered with Deco Fascia, please proceed to Section 2
STEP 1
INSTALLATION BRACKET PLACEMENT

Using the Drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the supplied screw covers on to the bracket for a finished look.

STEP 2
SHADE PLACEMENT

Once the brackets are secured and level, locate the Idler from the parts sent with your shade. Insert the Idler on to the left side bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the left side of the shade into the idler (as shown)

Insert the opposite end of the shade onto the bracket as shown.

STEP 3
ADDITIONAL ITEMS

If your shade was ordered as Outside Mount, locate the bracket covers and install them onto the installation brackets as shown.
If your shades were ordered without Deco Fascia, refer back to Section 1
**STEP 1**

**DECO FASCIA BRACKET INSTALLATION**

Using the Drill, secure the Fascia installation brackets with the supplied screws (as shown).

**Inside Mount**  
*Vertical installation - Typical installation*

**Outside Mount**  
*Backplate Placement*

Before installing the Fascia bracket, the Outside Mount Backplate will need to be installed first.

**Outside Mount**  
*Fascia Bracket snap*

Rest the “V” section of Fascia bracket against the bottom gap of the Backplate, then connect upper ends until you hear an audible click.

**Inside Mount Shade- Outside Mount Bracket**  
*Fascia Bracket Placement and installation*

Position the top line against the front edge of the wall then secure the bracket with installation screws as shown.

**STEP 2**

**SHADE BRACKET INSTALLATION**

Once the Fascia installation brackets are secured, insert the shade installation brackets into the slots of the Deco Fascia bracket as shown.

For outside mounted shades, the shade bracket should be inserted into the top slot. *Please note: The bracket should be inserted all the way into the slot in order for it to be positioned to stay in place.*

For inside mounted shades, the shade bracket can be moved up or down to perfectly level the shade as needed.
STEP 3
SHADE PLACEMENT

Once the brackets are secured and level, locate the Idler from the parts sent with your shade. Insert the Idler on to the left side bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the left side of the shade into the idler (as shown)

Insert the opposite end of the shade onto the bracket as shown.

STEP 4
ADDITIONAL ITEMS

If your shade was ordered as Outside Mount, locate the bracket covers and install them onto the installation brackets as shown.
STEP 5
DECO FASCIA INSTALLATION

INSIDE MOUNT
Inside Mounted fascia can be installed by snapping the back groove onto the front notch of each installed Fascia bracket. You will hear a click when it is installed.

OUTSIDE MOUNT (if ordered)
Attach the return with the supplied connector.
- Metal returns will include a plastic corner connector (outside mount only)
- Plastic returns simply snap on the end of the fascia (inside mount shade with outside mounted fascia)

Install the fascia by snapping the back groove onto the front notch of each installed Fascia bracket. You will hear a click when it is installed.
STEP 6
