Section 1 - Clutch Control Open Roll
Section 2 - Clutch Control with Deco Fascia
GETTING STARTED

Make sure you have all of the parts and tools required to install your shades.

Tools:
- Measuring Tape
- Power Drill
- #2 Phillips Screwdriver or
- ¼” Hex Head

General Parts to Install Your Shade:

- Installation Brackets
- Screws
- Idler
- Chain Stops
- Safety Tension Device
- Bracket Cover (Outside mounted only)
- Screw Covers (Outside mounted only)

Deco Fascia Installation Parts (supplied if Deco Fascia was ordered):

- Deco Fascia
- Deco Fascia Installation Brackets
- Outside Mount Backplate (if ordered)
- Plastic/Metal Returns (if ordered)*
- Corner Pieces (Outside mounted only)

* Metal returns will be included if you ordered outside mounted shades
Plastic returns will be included if shades were orders as inside mount with an outside mounted Deco Fascia
If your shades were ordered with Deco Fascia, please proceed to Section 2
STEP 1
INSTALLATION BRACKET PLACEMENT

Using the Drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the supplied screw covers on to the bracket for a finished look.

STEP 2
SHADE PLACEMENT

Once the brackets are secured and level, locate the Idler from the parts sent with your shade. Insert the Idler on to the non-chain side bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the non-chain side of the shade into the idler (as shown)

Insert the opposite end of the shade onto the bracket as shown.
STEP 3
ADDITIONAL ITEMS

If your shade was ordered as Outside Mount, locate the bracket covers and install them onto the installation brackets as shown.

STEP 4
SET THE LIMITS

To set the Upper Limit of the shade, simply pull the back chain until the desired up position is reached. Snap the Chain Stop to the bead just below the clutch as shown.

To set the Lower Limit of the shade, simply pull the front chain until the desired lowered position is reached. Snap the Chain Stop to the bead just below the clutch as shown.

STEP 5
SAFETY TENSION DEVICE

Your roller shade was produced with an ANSI compliant safety tension device attached to the bead chain. This device must be securely mounted before the shade will operate properly.

- Slide the device to the bottom of the bead chain.
- Pull the device down until the bead chain is fully tensioned.
- Mark the screw hole location and secure in place.
If your shades were ordered without Deco Fascia, refer back to Section 1
**STEP 1**

**DECO FASCIA BRACKET INSTALLATION**

Using the Drill, secure the Fascia installation brackets with the supplied screws (as shown).

*Inside Mount (Vertical installation - Typical installation)*

Outside Mount (Backplate Placement)

Before installing the Fascia bracket, the Outside Mount Backplate will need to be installed first.

*Outside Mount (Fascia Bracket snap)*

Rest the “V” section of Fascia bracket against the bottom gap of the Backplate, then connect upper ends until you hear an audible click.

*Inside Mount Shade- Outside Mount Bracket (Fascia Bracket Placement and installation)*

Position the top line against the front edge of the wall then secure the bracket with installation screws as shown.

**STEP 2**

**SHADE BRACKET INSTALLATION**

Once the Fascia installation brackets are secured, insert the shade installation brackets into the slots of the Deco Fascia bracket as shown.

For outside mounted shades, the shade bracket should be inserted into the top slot. *Please note: The bracket should be inserted all the way into the slot in order for it to be positioned to stay in place.*

For inside mounted shades, the shade bracket can be moved up or down to perfectly level the shade as needed.
STEP 3
SHADE PLACEMENT

Once the brackets are secured and level, locate the Idler from the parts sent with your shade. Insert the Idler on to the non-chain side bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the non-chain side of the shade into the idler (as shown)

Insert the opposite end of the shade onto the bracket as shown.

STEP 4
ADDITIONAL ITEMS

If your shade was ordered as Outside Mount, locate the bracket covers and install them onto the installation brackets as shown.

STEP 5
SET THE LIMITS

To set the Upper Limit of the shade, pull the back chain until the desired up position is reached. Snap the Chain Stop to the bead just below the clutch as shown.

To set the Lower Limit of the shade, pull the front chain until the desired lowered position is reached. Snap the Chain Stop to the bead just below the clutch as shown.
STEP 6
DECO FASCIA INSTALLATION

INSIDE MOUNT

Inside Mounted fascia can be installed by snapping the back groove onto the front notch of each installed Fascia bracket. You will hear a click when it is installed.

OUTSIDE MOUNT (if ordered)

Attach the return with the supplied connector.

- Metal returns will include a plastic corner connector (outside mount only)
- Plastic returns simply snap on the end of the fascia (inside mount shade with outside mounted fascia)

Install the fascia by snapping the back groove onto the front notch of each installed Fascia bracket. You will hear a click when it is installed.
STEP 7
SAFETY TENSION DEVICE

Your roller shade was produced with an ANSI compliant safety tension device attached to the bead chain. This device must be securely mounted before the shade will operate properly.

- Slide the device to the bottom of the bead chain.
- Pull the device down until the bead chain is fully tensioned.
- Mark the screw hole location and secure in place.

⚠️ WARNING

Window Blind Cord Can STRANGLE Your Child
To prevent strangulation, purchase cordless products or products with inaccessible cords

⚠️ ADVERTENCIA

La cuerda ciega de la ventana puede ESTRANGULAR su niño
Para evitar el estrangulamiento, compre alternatives inalámbricas o productos con cables inaccesibles
Section 1 - Cordless Operated Open Roll
Section 2 - Cordless Operated with Deco Fascia
GETTING STARTED

Make sure you have all of the parts and tools required to install your shades.

Tools:
• Measuring Tape
• Power Drill
• #2 Phillips Screwdriver or
• ¼” Hex Head

General Parts to Install Your Shade:

- Installation Brackets
- Screws
- Idler
- Bracket Cover (Outside mounted only)
- Screw Covers (Outside mounted only)

Deco Fascia Installation Parts (supplied if Deco Fascia was ordered):
- Deco Fascia
- Deco Fascia Installation Brackets
- Outside Mount Backplate (if ordered)
- Plastic/Metal Returns (if ordered)
- Corner Pieces (Outside mounted only)
If your shades were ordered with Deco Fascia, please proceed to Section 2
STEP 1
INSTALLATION BRACKET
PLACEMENT

Using the Drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the supplied screw covers on to the bracket for a finished look.

STEP 2
SHADE PLACEMENT

Once the brackets are secured and level, locate the Idler from the parts sent with your shade. Insert the Idler on to the right side installation bracket (as shown). You should hear a click once it is securely installed.

Grab second Idler and insert onto left side clutch opening (as shown).

Grab the roller shade and insert the right side of the shade into the idler (as shown).

Insert the opposite end of the shade onto the bracket as shown; the colored plastic tension holder will disengage once the bracket has been installed.
STEP 3
ADDITIONAL ITEMS

If your shade was ordered as Outside Mount, locate the bracket covers and install them onto the installation brackets as shown.

STEP 4
OPERATING INSTRUCTIONS

Pull the shade from the bottom handle and let go to lock it into the desired length.

STEP 5
ADJUSTING TENSION

Your cordless shade was produced with the limits already set. If you need to change or adjust this at any time, please follow the steps below:

To increase tension or speed, turn the left side wheel towards the back of the shade.

To decrease tension or speed, turn the left side wheel towards the front of the shade.

To shorten the length of the shade, turn the right side wheel towards the front of the shade.

To lengthen the shade, turn the right side wheel towards the back of the shade.
SECTION 2
CORDLESS OPERATED SHADE - WITH DECO FASCIA

If your shades were ordered without Deco Fascia, refer back to Section 1
**STEP 1**

**DECO FASCIA BRACKET INSTALLATION**

Using the Drill, secure the Fascia installation brackets with the supplied screws (as shown).

**Outside Mount (Backplate Placement)**
Before installing the Fascia bracket, the Outside Mount Backplate will need to be installed first.

**Outside Mount (Fascia Bracket Snap)**
Rest the “V” section of Fascia bracket against the bottom gap of the Backplate, then connect upper ends until you hear an audible click.

**Inside Mount Shade- Outside Mount Bracket**
(Fascia Bracket Placement and installation)
Position the top line against the front edge of the wall then secure the bracket with installation screws as shown.

**STEP 2**

**SHADE BRACKET INSTALLATION**

Once the Fascia installation brackets are secured, insert the shade installation brackets into the slots of the Deco Fascia bracket as shown.

For outside mounted shades, the shade bracket should be inserted into the top slot. *Please note: The bracket should be inserted all the way into the slot in order for it to be positioned to stay in place.*

For inside mounted shades, the shade bracket can be moved up or down to perfectly level the shade as needed.
STEP 3
SHADE PLACEMENT

Once the brackets are secured and level, locate the Idler from the parts sent with your shade. Insert the Idler on to the right side installation bracket (as shown). You should hear a click once it is securely installed.

Grab second Idler and insert onto left side clutch opening (as shown).

Grab the roller shade and insert the right side of the shade into the idler (as shown).

Insert the opposite end of the shade onto the bracket as shown; the colored plastic tension holder will disengage once the bracket has been installed.

STEP 4
ADDITIONAL ITEMS

If your shade was ordered as Outside Mount, locate the bracket covers and install them onto the installation brackets as shown.
STEP 5
OPERATING INSTRUCTIONS

Pull the shade from the bottom handle and let go to lock it into the desired length.

STEP 6
ADJUSTING TENSION

Your cordless shade was produced with the limits already set. If you need to change or adjust this at any time, please follow the steps below:

To increase tension or speed, turn the left side wheel towards the back of the shade.

To decrease tension or speed, turn the left side wheel towards the front of the shade.

To shorthen the length of the shade, turn the right side wheel towards the front of the shade.

To lengthed the shade, turn the right side wheel towards the back of the shade.
STEP 7
DECO FASCIA INSTALLATION

INSIDE MOUNT
Inside Mounted fascia can be installed by snapping the back groove onto the front notch of each installed Fascia bracket. You will hear a click when it is installed.

OUTSIDE MOUNT (if ordered)
Attach the return with the supplied connector.
- Metal returns will include a plastic corner connector (outside mount only)
- Plastic returns simply snap on the end of the fascia (inside mount shade with outside mounted fascia)

Install the fascia by snapping the back groove onto the front notch of each installed Fascia bracket. You will hear a click when it is installed.
TROUBLESHOOTING

Shade is rolling up on tube unevenly or tracks:

If you notice the material winds unevenly and begins to track or telescope to one side check to ensure that the shade is level. If the shade is not level, remove it from the mounting brackets and shim or reinstall the brackets, as necessary.

IMPORTANT NOTE: Operating a shade that is not level will result in damage to the material. Damage caused by operating an unleveled shade is not covered under our normal warranty.
